

Year 3 Geography Knowledge Organiser Topic- What is life like in Brazil?

Key Vocabulary

continents	Any of the world's main continuous expanses of land (Europe, Asia, Africa, North and South America, Australia, Antarctica).
South America	South America is a continent entirely in the Western Hemisphere and mostly in the Southern Hemisphere, with a considerably smaller portion in the Northern Hemisphere.
Brazil	Brazil, officially the Federative Republic of Brazil, is the largest and easternmost country in South America and Latin America.
Brasilia	The federal capital of Brazil and seat of government of the Federal District, located in the Brazilian highlands in the country's Central-West region.

Dinosaurs lived on all of the continents. At the beginning of the age of dinosaurs (during the Triassic Period, about 230 million years ago), the continents were arranged together as a single supercontinent called Pangea. During the 165 million years of dinosaur existence this supercontinent slowly broke apart.

Flag of Brazil

It has 27 white stars representing the country's states and Federal District.

The Amazon River in South America is the largest river by discharge volume of water in the world, and the longest or second-longest river system in the world, a title which is disputed with the Nile.
